

Silver Lake Vintage Guitars

37 Warren Street London S1T 6AD

1963 Original Martin 0-18

This no issues 1963 Martin 0-18 is in superb original Condition.

What a cracking little guitar this is!

Great neck angle, with loads of saddle, no cracks or repairs, and comes in a much earlier (1940's) Original Green Crushed Velvet lined Martin case. The case in it's self adds value and is in fine original condition with all of it's original clasps and case lock.

These guitars are great for recording as they have all the mid range, and brightness without the low end of a dreadnought, " that engineers always like to roll off."

Small bodied Martin's are deceptive " so much tone and volume out of such a small guitar. They have a lot of projection and fit really well in a mix.

Simply the perfect guitar for writing, recording and comfortable to play sat on the sofa.

Perfect example of a really useful and valuable Classic Vintage Guitar.

Price: £3,850
