Silver Lake Vintage Guitars

1966 Gibson ES-330

A very clean all original Gibson ES-330TD guitar in the not so common "Light Sunburst" finish. This finish was introduced by Gibson in the mid 1960s and can also be found on other Gibson models from the period, for example J-45's. However most Gibson 330's were either Tobacco Sunburst or Cherry. The only comparable colour to the Light Sunburst finish is the Epiphone Casino finished in Royal Tan.

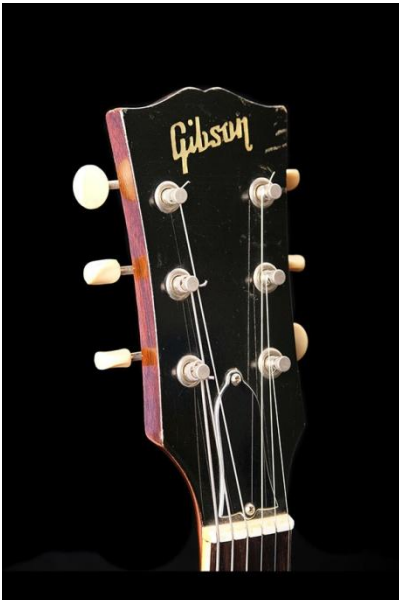

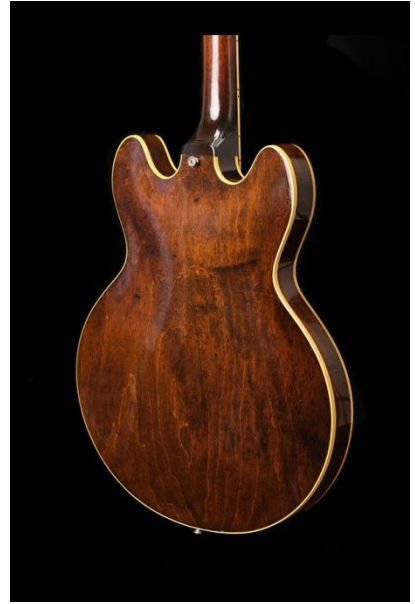

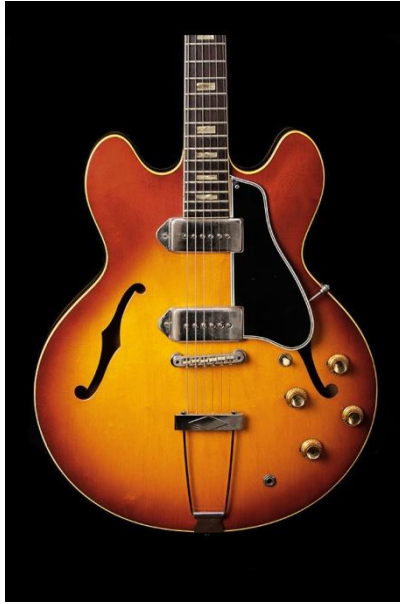

The Gibson ES-330TD is a thinline full hollow double cutaway without the centre block featured on its semi-hollowbody cousin the ES-335. Equipped with two P-90 pickups, and a neck joint at the 17th fret. A maple body and rosewood finger board with block inlays, tune-o-matic bridge and trapeze tailpiece.

This Gibson ES-330TD with nickel plated hardware is an altogether very playable, nice, original guitar and is offered in its original hard shell yellow-lined Gibson case.

Price: £4,495
